22 years old, final-year student of the Bachelor's in Computer Science and Business Management at Iscte. Passionate about technology, I enjoy constantly challenging myself and learning new things. Still discovering my professional path, I have developed several projects in both academic and real-world contexts that have helped me identify the challenges I'm most motivated to overcome.

Academic Background

Bachelor's in Computer Science and Business Management Iscte Tecnologias e Arquitetura

(Sept 2023 - Present)

A course with a strong Informatics component, but which also provides diverse knowledge related to the world of Business Management. This degree has allowed me to develop technical skills, such as programming, and behavioral skills, critical thinking and adaptability.

Academic Exchange in Management at ISCAL

(Sept 2022 - Jan 2023)

Extra-Curricular Activities

Coordinator of the Events Department Núcleo de Estudantes de Tecnologias

(May 2024 - May 2026)

As a member and, later, coordinator of the events department, I was responsible for the conception and organization of events for more than 1500 students, leading a team of 15 members over 2 years. This experience allowed me to work with more than 30 different people, which reinforced my skills in teamwork, problem-solving and project management.

Sponsorship Manager FISTA'26

(May 2025 - May 2026)

As the head of the sponsorships department for one of the largest student forums in Lisbon, I had the opportunity to lead a team of 4 members and establish contact with various companies. Securing 13 sponsorships allowed me to develop skills in leadership, negotiation and communication.

Member of the Innovation Department FISTA'25

(May 2024 - May 2025)

I had the opportunity to establish contact with various start-ups, associations and investors so that they could participate in the event.

Experiences and Projects

Erasmus+ Program

Università Degli Studi del Sannio, Itália

(Feb 2026 - Jul 2026)

Having the opportunity to attend an international mobility program was something that helped me a lot to develop skills in adapting to new cultures, autonomy and independence, and resilience.

Website Development

Sweet Saudade

(Oct 2025 - Dec 2025)

I developed the first website for the Sweet Saudade brand, a modern and responsive web application, focused on showcasing and selling traditional Portuguese pastry products. I used React, HTML and CSS to build the interface, with a focus on UI/UX principles. I was also responsible for deploying the project on Netlify.

Personal Portfolio Development

Guilherme Gomes | Portfolio

(Jul 2026)

I took the initiative to develop my own portfolio to better showcase who I am, my skills and some of my projects. Built purely with React and Tailwind, this was another project that allowed me to further develop my frontend programming skills.

Volunteer

Web Summit 2024 - Registration Team

(Nov 2024)
